

The World's Most Affordable and Reliable Industrial Bolting Systems

TTP™ Pneumatic TorcGun

Accuracy, Durability, Power and Safety All-in-One Lightweight, Portable Tool Design

- Accurate torque with extra low [dB level] noise and soft vibration
- Maximum torque achieved at only 90 psi
- Extensions available for job specific applications
- Made from lightweight high-strength aluminum alloy metals
- Precision gearing produces constant, calibrated tightening power
- Highest power-to-weight ratio of any comparable product
- Compatible with HYTORC Washer™ and HYTORC Nut™
- Stretch-to-load fastening systems for maximum bolt load accuracy
- Splined reaction area allows for the use of custom reaction fixtures

BOLTINGSOLUTIONS

The World's Most Affordable and Reliable Industrial Bolting Systems

TTP™ Pneumatic TorcGun

Complete Air-Powered Torque System Accessories

FRL Unit with High Air Pressure Hose:

When purchased from AMG Bolting Solutions the TTP comes with Filter, Regulator and Lubrication Unit.

Specialty Sockets:

Extension Arm(s):

Added safety and convenience comes with every TTP purchased from AMG Bolting Solutions via a standard extension arm.

**** Specialty socket & extension arms purchased separately.*
